WHO IS BUBKA LAW GROUP?

Bubka Law Group is a full service law firm dedicated to providing help in a language that clients can understand. They focus on helping clients feel confident their legal matter is being handled professionally and as efficiently as possible.

CHALLENGE

Bubka Law Group had challenges:

- Using overly expensive texting platforms that didn't sync with their software
- Countless phone calls to clients to remind them of court dates and times
- Getting in contact with clients in general

SOLUTION

How Kenect Solved these Issues:

- Kenect was priced at the correct price point and is integrated with their current software
- Kenect implemented business texting so customers responded much quicker
- With texting, clients could go back to look at specific dates and times

RESULTS

Kenect texting is a more informal way to communicate that doesn't require us to always be on phone.
