Simple, Easy-to-Use Tools

Why is Social Media so Important?

Customers want to see pictures and videos before they travel to your business. With Kenect, your staff can capture and send videos of all types to consumers, from introducing yourself to a prospect, to walkarounds, to showing completed repairs, and more.

Companies that post on social media regularly have better customer relationships and get more positive reviews.

By posting regularly on Social Media, you'll see higher show rates and increased sales conversions.
