Managed Conversations

## WHO IS O'HARA & O'HARA?

The roots of O'Hara & O'Hara L.L.C. were established in Wichita, Kansas, by T.L. O'Hara in 1950. T.L. O'Hara started the family tradition by providing smart, zealous, dedicated, caring, and hardworking representation over 60 years ago. The imprint that was created by T.L. O'Hara over 60 years ago is what makes O'Hara & O'Hara L.L.C. successful today. Their experienced lawyers represent clients in Criminal Defense Law, Family Law, and Immigration Law. They handle cases throughout the State of Kansas, in City, State, and Federal Courts.

### CHALLENGE

O'Hara & O'Hara had challenges:

- Was difficult to get in contact with clients for court date reminders
- Would send letters for reminders which almost never worked
- Sending reminders and responding to leads was taking staff way too much time and left no time for other tasks

### SOLUTION

How Kenect solved these issues:

- With Kenect, they could send a quick reminder via text which is almost always responded to
- No more letters! All reminders are now sent via text which has proven to be much more cost effective and efficient
- Staff can now focus on important tasks since Kenect responds to new leads for them!

### RESULTS

#### MANAGED CONVERSATIONS IS A GAME CHANGER

"Managed Conversations has been an absolute game-changer for our firm. Kenect responds to new potential clients for us which has helped us convert leads into clients much more efficiently.

Before, our attorneys would respond to new leads and there would be a delay because they are very busy. Now, with Kenect, new clients get a response immediately and Kenect can ask the initial questions to get the information we need to know about the client. I can't say enough great things about this product!"
