WHO IS PORT 393?

Port 393 is a wedding venue that started in 2020. It was started by a husband and wife team who saw a need for better wedding venue spaces in the area. Port 393 has a service-oriented approach comes from the belief that event planning should be as fun and stress-free as possible so you can prioritize celebrating.

CHALLENGE

Port 393 had challenges:

- Owner was using personal phone to answer brides at all hours of the day
- Work/life balance was compromised
- Leads would come into different phones and would get lost because they couldn't be direct to the right employee

SOLUTION

How Kenect Solved these Issues:

- With Kenect, the owner no longer had to use her personal cell to answer clients
- Kenect implemented auto replies so work life balance could improve
- With Kenect, leads all go into the same platform so they can be streamlined to the correct employee

RESULTS

Before Kenect, we had so many communication issues. Kenect has solved all of them! And with the Tripleseat integration, we can seamlessly communicate with our brides, collect payments and more.

Lauren Mouw

"Kenect saves us the most time with leads and payments - two things that make us money!"

10+ Google Reviews since starting with Kenect

Saving 2-3 hours per employee per day

Kenect has helped the owners have more of a work/life balance by using business texting vs. a personal phone
